

ELDORADO

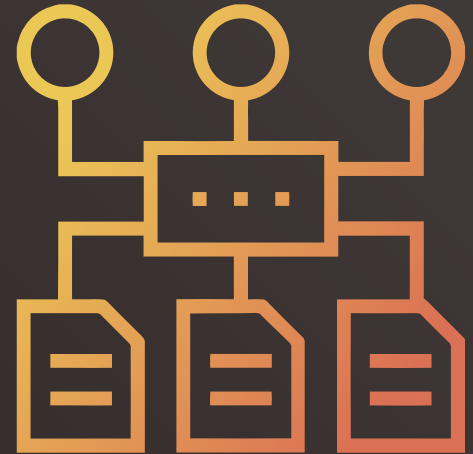

Global Mutual Aid Club

Marketing Kit

Digital Treasure

The **ELDORADO** system is based on the improved unique mathematical algorithms developed by the **Mavrodi brothers — Sergey and Viacheslav**. It was created by a team of former **MMM** enthusiasts.

- **+0.00485917%** profit is made every **8** minutes: **+1%** per day or **+30%** per month.
- **+5%** referral bonus.
- Guaranteed **80%** refund (of the donation amount + all earnings and bonuses) in case of restart.
- **8-level leadership bonuses**.

Algorithms changing the world

25 years ago brothers Mavrodi — Sergey and Viacheslav — developed unique mathematical algorithms that could change the world. They enable distribution of spare money in such a way that everyone wins and wants for nothing.

However, they could not fully deliver on their plans due to the lack of required technology. Sergey Mavrodi's untimely demise and shutdown of MMM in 2018 could have put to rest the idea itself because the algorithms had been kept secret until today...

BUT!

2 months later, Viacheslav Mavrodi shared the algorithms with the Community to let the idea live on. MMM enthusiasts used these algorithms as a basis, improved them using their own ideas and cutting-edge technologies, including Blockchain, and came up with a new version of a mutual aid system — a decentralized system with automated payments and post-restart refunds that cannot be destroyed!

Opportunities millions of members have been dreaming about

Consistent 30% profit on a monthly basis. It only takes a few clicks to start!

1. Enter your cryptocurrency address and click "Join".
2. Send cryptocurrency to the donation address.
3. Your donation grows by **+0.00485917%** every **8** minutes, making up **+1%** per day or **+30%** per month.
4. You can withdraw your money at any time.

That's it! No registration, all payouts are automatic.

- ✓ Reliable mathematical algorithm.
- ✓ Decentralized System.
- ✓ Blockchain-based — impossible to hack.
- ✓ No human factor involved.
- ✓ Automatic payouts.
- ✓ No registration required to join.

How will your \$1,000 donation grow?

In a month — to **\$1,300.**

In 2 months — to **\$1,690.**

In 3 months — to **\$2,197.**

In 6 months — to **\$4,827.**

In a year — to **\$23,298!**

Instantaneous 5% referral bonus

1. To invite a new member, send them your referral link.
2. When they join the System and make a donation, you will receive 5% of the donation amount.
3. Bonuses are awarded for donations by each new member. You can bring in as many new members as you want — it could well be the entire world!

8-level leadership bonuses.

Whenever your referrals bring in new members, you'll earn bonuses, too!

For instance, you've invited your friend Ivan to the System, and he's become your referral. Ivan has invited Leonid who has become your Level 2 referral. When Leonid invites Peter, the latter will become your Level 3 referral, etc.

8 levels in total — it's your team, and you're their leader! Bonuses are activated under the condition that you've donated a certain amount in total.

Level	Percentage	Personal donation
1, ref. bonus	5%	from \$88
2	3%	from \$888
3	1%	from \$1,888
4	0.5%	from \$2,888
5	0.3%	from \$3,888
6	0.1%	from \$4,888
7	0.05%	from \$5,888
8	0.05%	from \$6,888

Total allocated for bonuses: **10%**

Bonuses are only awarded for the “new money”.

The new money is the NEW donations, rather than donations of earnings.

For instance:

- You invite a new member who makes a donation of \$1,000 — you receive \$50.
- If, however, this new member withdraws \$1,500 and makes another donation of \$1,000, you get no bonus.

Maximum convenience

- Withdrawal at any time.
- Bonuses are immediately awarded and grow at a certain rate.
- No limitations apply — you can donate any amount to ELDORADO.

Minimum risks

No risk of losing funds

If something goes wrong, a restart is announced and the system is relaunched. Each member receives an 80% refund of the amount available in their Personal Account (donation amount + earnings + bonuses).

Safe, transparent, decentralized

ELDORADO does not store member passwords and personal data. The system operates automatically using the cryptocurrency blockchain, with no human factor involved, and uses “cold” wallets.

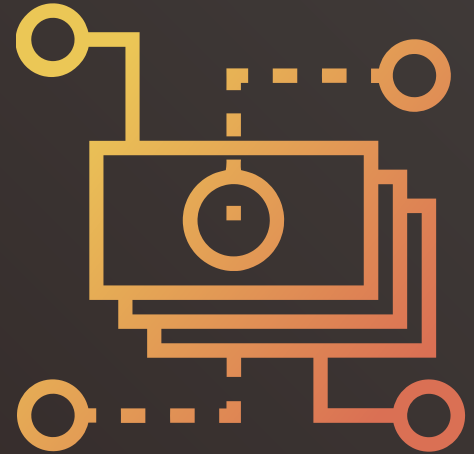

Thus, a restart in ELDORADO is no big deal.

For example:

- You have donated \$1,000.
- In 3 months, this amount will grow to \$2,197 + assume you will also receive \$303 in bonuses.
- It will make up \$2,500 in total. Assume a restart is announced.
- You will then receive an 80% refund of \$2,500, not \$1,000, which equals \$2,000.

You will still remain on the winning side!

How it all works — in simple terms

Donate and make profit

- You make a donation of \$1,000.
- This amount grows by +0.00485917% every 8 minutes.
- You can withdraw your profit at any time. In a month, you will be able to withdraw \$1,300!

Receipt of bonuses

- You bring in your friend Leonid as a new member who makes a donation of \$1,000.
- You are awarded a referral bonus of \$50 (5% of \$1,000).
- Leonid invites his friends, and you receive leadership bonuses for them, too.

Further development

Seeing how well it works, you and other members make new donations and set up your own teams. The System operates like clockwork — everyone receives profit and bonuses!

How to start

1. Navigate to our website's home page — <https://eld.club> — or the Office tab — <https://eld.club/lk.html>.
2. To create your Personal Account (PA), enter your cryptocurrency address and click **"Join"**. Important! We don't require you to enter mnemonic phrases — just the address to send the reward to. By entering the address, you don't place your wallet under any threats. As of now, your address is your login and password for accessing your PA — please, save it.
3. To make a donation, transfer an amount in cryptocurrency to the Donation Address indicated in your PA.

To join, you will need the SPARTA cryptocurrency.

Why does the System use the SPARTA cryptocurrency?

It's simple. SPARTA has an educational website, an embedded exchanger for buy/sell transactions and an easy-to-use wallet with required functionality. A simple blockchain explorer is also available, with statistics displayed in real time. The project is available in 20 world's languages.

It's fast. SPARTA blockchain allows for nearly instantaneous transactions and for fast accumulation of earnings.

It's reliable. With SPARTA blockchain, you don't have to worry about potential network attacks.

Our purposes are similar! SPARTA, just like ELDORADO, strives to build a new and fair financial System. We're going to change the world together!

Where can I buy SPARTA cryptocurrency for making donations?

- Create a SPARTA wallet on the <https://wallet.sparta.top/> website.
- Or obtain a SPARTA address on the **SIGEN.pro** platform.

You can buy/sell cryptocurrency to fill up your wallet:

1. On the SPARTA website via the embedded exchanger in exchange for other cryptocurrencies <https://sparta.top/>.
2. On the **SIGEN.pro** platform in exchange for other cryptocurrencies.
3. On the **SIGEN.pro** platform in exchange for fiat currencies from all over the world via the P2P platform.

You can withdraw funds by making just a few clicks in your wallet.

To withdraw funds, you need to sign a message. You need to do this to prove that you actually own the address. It's easy and can be done in just a few mouse clicks in your cryptocurrency wallet.

This step protects you from unauthorized access to your settings and from hacking. Since no passwords are stored anywhere, they cannot be stolen. In fact, your cryptocurrency address is your password.

You can easily sign a message in the SPARTA web-wallet or on the **SIGEN.pro** web-platform.

Can ELDORADO shut down, just like the previous MMM projects?

No. Earlier, MMM had to face obstacles on its path to changing the world. MMM-94 was shattered down by the state that took 17 trucks of cash belonging to MMM members to an undisclosed location. MMM-2011 shut down after its leader, Sergey Mavrodi, was arrested, and MMM Global closed down after his demise.

We've learnt the lessons from MMM-94, MMM-2011 and MMM Global — we've incorporated the best and got rid of all disadvantages.

- Using the cutting-edge Blockchain technology, the mathematical algorithm developed by the Mavrodi brothers and our own unique ideas, we've created a System at a new level.
- In ELDORADO, funds cannot be stolen.
- The System cannot be hacked.
- This is a decentralized System controlled by no one and dependent on no one; it can continue operating on its own, with no commands.

Considering the above factors, ELDORADO simply cannot end up like MMM.

Change the world by using a digital treasure!

ELDORADO is a completely safe and transparent decentralized System. It operates automatically on the Blockchain, is controlled by no one and has no human factor involved. It cannot be shut down — therefore, nothing will prevent us from changing the world.

MMM comprised 27 mln active members from various countries, awesome leaders and big ideals. This Community is now becoming decentralized and is evolving into ELDORADO — the Global Mutual Aid Club that has inherited the best MMM features and has removed all of its faults.

ELDORADO makes payments all over the world!

Join us — make donations and make profit!

Bring in new members and create teams to earn awesome bonuses!

Welcome to the Club!
